What is a scouting meet? A scouting meet is a meet that holds no promises, no guarantees, and a pocket full of possibilities. We will meet at a time in a desired location, and "scout" out new ground, hopefully finding a new "Bloomington." We have not pre-scouted or secured land permission for these locations....you are on your own! Please show up and help us look, it will only make future meets better.

From the board of the IFO, good hawking and we will see you in the field.
